

Committed to Care

Disposable Medical Devices

SPM MEDICARE PVT. LTD . has set-up a state-of-the-art manufacturing facility in the National Capital Region (NCR) of India for manufacturing Disposable Medical Devices and Disposable Apparel Range. Since the Company's inception in 2015, SPM Medicare has emerged as one of the fastest growing companies in India in the medical sector, and the Company has won laurels for its commitment to Quality and Service in manufacturing and exporting finest products at competitive prices.

The Company has installed top-of-the-line automatic machines in our facility with a quest to achieve optimized manufacturing processes and to achieve highly safe and quality products. The Company manufactures all products in side Clean Room Areas, and we have in-house ETO Sterilizer and dedicated Quality Lab equipped to meet national and international regulatory requirements. In addition to this, ease in the availability of raw material, experienced and dedicated team, and backing from leading financial institutions helps us to operate smoothly and reliably. The Company also values the hygiene and safety of our workers and ensures that they wear recommended safety gear during production.

The Company maintains and follows the Quality Management System as per ISO 13485 certified by TUV Rhineland (Germany) & ITC (Czech Republic). Further our products have also received CE certification from TUV Rhineland (Germany) and UKCert (UK). With above Certifications in place from the most stringent quality authorities, the Company has been able to Market and place our products PAN-India as well as in more than 20 countries around the world.

VISION

- To become the most respected organization in the Healthcare sector, touching billion lives across the globe by providing safe and quality products and services.

MISSION

- To understand the requirements of our customers in the medical and healthcare sectors.
- To design and manufacture high quality products and services as per customer's requirements.
- To establish an environment wherein we are committed to provide world class care.

Safety Regulation

In India there is already on Hand book of Safe Injection Practices published by National Centre for Disease Control (NCDC) [Formerly known as National Institute of Communicable Diseases (NICD)] (Directorate General of Health Services) Ministry of Health & Family welfare 22- Sham Nath Marg, Delhi-110054.

In the hand book mentions that "Giving an injection safely is considered a routine nursing activity. Good clinical practice guideline for injections recommend the use of a new, single use syringe and needle (Auto Disable Syringe) or a pre filled syringe for each injection and for the reconstitution of each unit of medication".

Also, in chapter III – Safe Injection Practice recommended *the uses of prefilled saline flush syringes will be preferred for all types of flushing needs which specifically developed for flushing.

In-Line Arterial Blood Sampling Set

EASY BLOOD-COLLECT™

TECHNICAL SPECIFICATIONS

Luer Lock Cap

Leak proof & Identification

Barrel

Crystal Clear Visibility

Gasket

Leak proof

Plunger

Smooth Movement

Features :-

- Specially designed to minimize preanalytical variability in sample collection, handling & transportation.
- Dry electrolyte-balanced heparin reduces the risk of your sample clotting.
- Easy to use and provides highly accurate results.
- Reduces the risk of blood spillage during transportation.
- Strong sealing capacity which minimize possibility of contamination.
- Bold and clear marking graduation line for ease of reading.
- Gamma Sterile, Non Pyrogenic, Single use only.

Available also

- With and Without Needle
- Packaging : Blister Pack

Technical Specification :

Size	Product code	Needle	Packaging	Qty. Inner /Outer

ORAL SYRINGE

ORAL DISPENSING SYRINGE

EASY ORAL

TECHNICAL SPECIFICATIONS

Features :-

- Oral Medication Syringe provides an easy way to administer medicine to patients with more accurate dosages.
- Green syringes feature easy-to-read scale markings for accuracy.
- The use of oral syringes is recommended v/s commonly found alternative measuring devices like spoons or cups due to increased volumetric accuracy.
- Smooth movement of plunger.
- This product is available Sterile and Non-Sterile.

SAFETY I.V. CANNULA

Easy-Vein® Control-Way

I.V. Cannula with Wings, with Extension line & Safety Feature

Sharp Needle Tip

Needle Free Injection Valve

Safety Guard (Super)

Features :

- This device is designed to minimize needle stick injuries and blood exposure during insertion.
- It can reduce backflow into the tip of the cannula, reducing the risk of occlusion and the need for repeated insertions.
- This device reduces the risk of the healthcare professional coming into contact with the patient's blood and provides a safe way of drawing blood samples.
- The pre-assembled system creates a closed fluid path, designed to reduce blood leakage from the catheter hub, and minimise the potential for contamination and exposure to blood.
- The use of needle free connectors eliminates the presence of needles when connecting administration sets or syringes.
- Sterile, Non-Toxic, Non-Pyrogenic, Single use only.
- Packaging : Individual Blister pack

(IV Set standard vented with Y port)

Product Code - 2ARCV

- 15mm drip chamber with air vent fitted with 0.2 μ filter : 20 drops ~1 \pm 0.1ml.
- PVC tube 150cm long with ID ϕ 2.8 \pm 0.1mm, OD ϕ 3.8 \pm 0.1mm.
- Y-site for convenience of admixture injections.
- Luer lock ABS material.
- Fluid filter in drip chamber 20 \pm 2 μ .
- With or without Needle size 21G.
- Individual Packaging in Ribbon Pouch.
- E.O. Sterile.

ACCU-FLOW *Purge*

(IV Set Vented with purge filter -0.2 micron & Y-Injection site)

Product Code - 2BPPV

- 15mm drip chamber with air vent fitted with 0.2 μ filter : 20 drops ~1 \pm 0.1ml
- DEHP free PVC tube 150cm long with ID ϕ 2.9 \pm 0.1mm, OD ϕ 3.9 \pm 0.1mm
- 0.2 μ purge filter
- Y-site for convenience of admixture injections
- Luer lock ABS material
- Fluid filter in drip chamber 20 \pm 2 μ .
- With or without Needle size 21G
- Individual Packaging in Peel Open Pouch, E.O. Sterile

ACCU-FLOW *Dial*

(IV Set DEHP free Vented with flow regulator & Y-Injection site)

Product Code : 2BPFV

- 15mm drip chamber with air vent fitted with 0.2 μ filter : 20 drops ~1 \pm 0.1ml
- DEHP free PVC tube 150cm long with ID ϕ 2.9 \pm 0.1mm, OD ϕ 3.9 \pm 0.1mm
- Vented drip chamber with Flow Regulator.
- Y-site for convenience of admixture injections.
- Luer lock ABS material.
- Individual Packaging in Peel Open Pouch, E.O. Sterile.

ACCU-FLOW *Connect*

(IV Set Vented with male connector & Y-Injection site)

Product Code - 2BPCV

- 15mm drip chamber with air vent fitted with 0.2 μ filter : 20 drops ~1 \pm 0.1ml
- DEHP free PVC tube 150cm long with ID ϕ 2.9 \pm 0.1mm, OD ϕ 3.9 \pm 0.1mm
- Y-site for convenience of admixture injections
- Luer lock ABS material
- Fluid filter in drip chamber 20 \pm 2 μ .
- With or without Needle size 21G
- Individual Packaging in Paper Pouch
- E.O. Sterile

BLOOD TRANSFUSION SET & MEASURED VOLUME SET

ACCU *Fusion* REGULAR

(Blood Transfusion set Non-Vented with latex bulb (15mm))

Product Code : 2DHFR, 2DRFR

- 15mm drip chamber : 20 drops $\sim 1 \pm 0.1$ ml
- PVC tube 150cm long with ID $\varnothing 2.8 \pm 0.1$ mm; OD $\varnothing 3.8 \pm 0.1$ mm
- Latex bulb for injection site
- Blood Filter made by Plastic, attached inside the chamber $200 \pm 10 \mu$
- Needle size 18G
- Individual Packaging in HM Pouch & Ribbon Pack
- E.O. Sterile

ACCU *Pedia* REGULAR (110/150ml) (Measured Volume Fluid Administration Set)

Product Code - 110ml: 2CHB2, 150ml: 2CHB6 (For HM Pack)
